

Major Offered Through:

CORVALLIS

CASCADES

## Lane Community College

### Biochemistry and Molecular Biology

The Biochemistry & Molecular Biology degree provides a degree path centered on the molecular basis of living systems with training in molecular genetics, biochemistry, and cell biology, as well as in rapidly developing areas such as bioinformatics. Majors must select an option either in Advanced Molecular Biology, Computational Molecular Biology, or Pre-Medicine. The first two options are designed for students interested in careers in the biotechnology and pharmaceutical industries or graduate work in the molecular life sciences, with the second especially well-suited for students interested in computational aspects of molecular biology. The third option is ideal for students interested in careers in medicine and related health professions.

#### Biochemistry & Molecular Biology Options (required)

- Advanced Molecular Biology
- Computational Molecular Biology
- Pre-Medicine

### Your Bachelor's Degree (BS) in the College of Science

- A minimum of 180 credits are required for graduation; 60 must be upper division (300 and 400-level courses).
- A maximum of 135 transfer credits may be applied toward a bachelor's degree at OSU.
- Only courses with letter prefixes and numbers above 100 can be accepted.
- Options available. See "Important Notes".
- See the OSU Catalog for a list of courses required for your major and option: [catalog.oregonstate.edu](http://catalog.oregonstate.edu)

## Courses for this Major (Offered at Lane Community College)

This list is comprehensive. Speak with an OSU advisor for more information.

*Priority courses to complete before transferring are distinguished by <sup>P</sup>*

| Biochemistry and Molecular Biology Core Requirement | LCC Equivalent Course              | OSU Courses                                                                                 | Notes                                                                                                                                                                                                                                                                                                                                     |
|-----------------------------------------------------|------------------------------------|---------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Mathematics <sup>P</sup>                            | MTH 111Z, 112Z, 251Z, 252Z         | MTH 111Z, 112Z, 251Z, 252Z                                                                  | Math placement determines where students begin in math. Please speak to your LCC advisor.                                                                                                                                                                                                                                                 |
| General Chemistry <sup>P</sup>                      | CH 221Z/227Z, 222Z/228Z, 223Z/229Z | CH 221Z/227Z, 222Z/228Z, 223Z/229Z                                                          |                                                                                                                                                                                                                                                                                                                                           |
| Principles of Biology <sup>P</sup>                  | BI 221Z, 222Z, 223Z                | BI 221Z, 222Z, 223Z                                                                         | Courses in Biology sequence now transfer course by course. Prior BI211, 212, 213 - need full year to transfer                                                                                                                                                                                                                             |
| Physics                                             | PH 201, 202, 203                   | PH 201, 202, 203                                                                            |                                                                                                                                                                                                                                                                                                                                           |
| Organic Chemistry                                   | CH 241, 242, 243                   | Satisfying ochem transfer requirement will fulfill BMB requirement for CH334, 335, 336, 337 | Must pass the ACS organic exam offered as part of LCC course to receive upper division credit:<br><a href="https://chemistry.oregonstate.edu/undergraduate/transfer-students/organic-chemistry-transfer-policies#UGOCCC">https://chemistry.oregonstate.edu/undergraduate/transfer-students/organic-chemistry-transfer-policies#UGOCCC</a> |

## Important Notes & Resource

### Important Notes for the College and Major:

- Grade requirements: C- or better in all lower division math, biology, and chemistry coursework.
- See a sample degree plan here: [Biochemistry and Molecular Biology Sample Plan](#)
- For more information on the Biochemistry and Molecular Biology major see here: [More information](#)
- Option required. Select from: Advanced Molecular Biology, Computational Molecular Biology and Pre-Medicine
- Other similar majors to explore: Biochemistry & Biophysics and Biology with a Genetics option
- Math, Chemistry, Biology and some Core Education are priority courses to complete before transferring to OSU.
- For Biochemistry & Molecular Biology students, the best time to transfer is fall term, particularly due to the required three term science series courses.
- It is important to speak with your College of Science Transfer Advisor early on, and often, to ensure correct course selection and sequencing.

### Resources and OSU Information:

- Students do not have to complete a transfer degree in order to transfer to OSU.
- If you've completed the Oregon AAOT or ASOT, all lower division Core Ed requirements are considered complete except for Synthesis Courses and Writing Intensive Courses.
- If you've completed to CTM (Core Transfer Map) or an MTM (Major Transfer Map), all lower division Core Ed requirements are considered complete except Difference, Power and Oppression Foundations.
- Preparing to apply to OSU? See admissions info: [transfer.oregonstate.edu/applying-oregon-state-university](https://transfer.oregonstate.edu/applying-oregon-state-university)
- Want to take classes at both OSU and an Oregon community college? Check out the Degree Partnership Program: [partnerships.oregonstate.edu/students](https://partnerships.oregonstate.edu/students)
- Visit OSU for a campus tour and meet with an advisor; schedule your visit at [visitosu.oregonstate.edu](https://visitosu.oregonstate.edu)
- Find more transfer student resources at [transfer.oregonstate.edu](https://transfer.oregonstate.edu).

## Core Education Requirements

- Please note, Core Education ("Core Ed"), include the general education requirements for students admitted to OSU Summer 2025 and onward. Students admitted Spring 2025 and earlier should refer to the Baccalaureate Core and/or their advisor for guidance.
- For full listing of courses that fulfill Core Education requirements, please refer to <https://transfer.oregonstate.edu/oregon-and-hawaii-course-articulations> and search for the Oregon CC you are attending.

|                      |                                              |                                                       |

|                      | Seeking Solutions                            | Many options (take at OSU)                            |
|                      | Writing Elevation                            | WR 227Z at CC                                         |
|                      | Writing Intensive Curriculum                 | BB 317 or BB 318 (take at OSU)                        |

## Advising Contacts

It is important to speak with your OSU academic advisor early on, and often, to ensure correct course selection and sequencing.

Academic advisors at your community college and OSU are available to answer your questions and assist you in creating a transfer plan. **See your community college advisor first and use this Transfer Guide to help you plan.** Also, consider meeting with an OSU transfer advisor (see email below) and visiting OSU to take a campus tour. See [visitosu.oregonstate.edu/visit-campus](https://visitosu.oregonstate.edu/visit-campus) to schedule your visit.
